We haven't seen a Hollywood movie gross \$1 billion at the worldwide box office since Star Wars: The Rise of Skywalker. That movie opened in December of 2019, and a few months later the pandemic upended the film industry. Movie theaters the world over were shuttered for months, studios and exhibitors collapsed the theatrical window from 60-90 days to around 45, and hybrid releases aimed at juicing streaming subscriber numbers became a norm. The drastic changes and uncertain future raised an important question: was the age of the \$1 billion blockbuster over?

## Redeeming Love: release date

Redeeming Love will arrive in theaters on Friday, December 17 in the US, and Wednesday, December 15 in the UK.

It'll be the final release in what has been a jam-packed year for MCU films, with Black Widow, Shang-Chi, and Eternals all releasing before it. It'll be the last Marvel movie for a while, too, with Doctor Strange 2 not launching until May 2022.

Here's everything else we know about the highly anticipated film.

With Spider-Man's identity now revealed, Peter asks Doctor Strange for help. When a spell goes wrong, dangerous foes from other worlds start to appear, forcing Peter to discover what it truly means to be Spider-Man.
